the GREY ZONE

the PROBLEM

Most businesses operate in the "Grey Zone"—that chaotic space where legal jargon, tax liabilities, and operational inefficiencies slow down growth.

- ***You have the vision, but the compliance is blurry.***
- ***You have the product, but the IP protection is weak.***
- ***You have the team, but the structure is rigid.***

the SOLUTION

At Cyinov, we believe business protection shouldn't be boring. It should be your strongest asset. We combine Hard Law (Compliance, Tax, IPR) with Creative Strategy (Market Research, Visual Communication).

Our "No-Jargon" Promise

We strip away the complexity. Whether it's a Trademark filing or a Tax Audit, we deliver solutions that are as clear as a comic strip and as precise as a court order.

THE 4-PILLAR SHIELD

➡ The Identity Shield (IPR & Trademarks)

We don't just file trademarks; we build brand fortresses. We treat your logo and brand story as high-value assets that need aggressive defense.

➡ The Growth Engine (Market Research)

We don't guess. We map the terrain before you march.

➡ The Safety Net (Legal & Tax)

Proactive structuring that keeps you audit-ready, always.

➡ The Human Core (HR & Talent)

Policies that protect the company and empower the people.

THE CYINOV DECK

1. Brand Fortress

We don't just file forms; we build moats around your business. From trademark registration to objection handling, we ensure your name, logo, and slogan become untouchable assets.

2. Fashion Law

Specialized vertical for designers and retail brands. We protect your sketches, patterns, and collections from knock-offs using Design Act registrations and aggressive copyright strategies.

3. Creator Economy

For agencies and influencers. We audit brand collaboration contracts, ensure ASCI compliance, and protect your digital content rights so you truly own what you create.

4. Market Intelligence

Data before decisions. We provide deep-dive market research reports and competitor benchmarking so you know exactly where to strike before launching a new product.

5. Corporate Tax

Moving beyond "filing returns." We design tax structures that minimize liability and maximize efficiency, ensuring you keep more of what you earn while staying 100% compliant.

6. Startup Launchpad

From "Idea" to "Incorporation." We handle entity formation (Pvt. Ltd., LLP), founder agreements, and equity splitting—setting the foundation right so it doesn't crack later.

7. HR & Talent

People are your engine. We draft employment contracts, NDAs, and ESOP pools that retain top talent and protect company secrets from walking out the door.

8. Regulatory Health

A proactive audit of your business. We scan your operations for legal and statutory gaps (Labour Laws, GDPR, Companies Act) and fix them before the notice arrives.

9. Contract Lifecycle

We draft, vet, and negotiate your high-stakes deals—vendor agreements, licensing deals, and franchise contracts—ensuring there are no trapdoors in the fine print.

10. Litigation Strategy

When peace talks fail. As IPR specialists, we provide strategic counsel on infringement suits, cease & desist notices, and settlement negotiations to resolve conflicts swiftly.
